9) How many times did you drink soft drinks? □ □ □

10) How many times did you eat sweets?

Conclusion: The results of this survey show that the diet of the students is not as healthy as it should be. They consume too many soft drinks and sweets, which is not good for their health. We should encourage them to eat more fruits and vegetables and drink more water. Thanks to Mrs. Zavounis for teaching us how to use the survey results.
